

## Silicon Valley Tech Tour

The Silicon Valley Tech Tour is a unique one-day experience. Designed for those who come to Silicon Valley to learn about new technologies, it also offers unparalleled access to the Valley's "secret sauce": disruptive startups.

On this tour you'll visit the most innovative companies operating today in Silicon Valley and get hands-on experience with cutting-edge technologies. Getting up to speed on the major trends in the fields of Internet of Things, Virtual Reality, Artificial Intelligence, Drones and Robotics comes as standard.

Join the Tech Tour and meet the founders and CEOs who are transforming industries. Hear insider stories of their greatest successes *and* failures.

- One-day experience
- Runs every Friday

### Inspirational Insights

Discover powerful new ideas about the future of your industry by interacting with like-minded participants, speakers and Silicon Valley insiders

### Practical Takeaways

Tap into the wealth of experience Silicon Valley has to offer. Experience disruptive new technologies and find out how they'll effect your business.

### Experiential Learning

Learn from real-life stories of success and failure from local innovators, startups and entrepreneurs.

### Hands-on Experience

See technology demos and test new products first-hand. Be first to try out the latest innovations. Witness the future today.

Below you'll find program details:

### Schedule

- 09:00 am - 10:00 am

### Keynote speech

“The future of business” and Q&A by innovation strategist of Silicon Valley Innovation Center at Silicon Valley Innovation Center.

- 10:00 am - 11:30 am

### Tesla Model X test drive and Oculus Rift / Microsoft Hololens tryouts.

There are 3 main features of Tesla that we will show to highlight “autonomous” driving.

- Autopilot (Car will follow other cars, stop itself if car stops in front of it, follow the lane even with turns, and etc. )
- Auto parking (Car can park itself automatically both parallel and perpendicular).
- Auto summon (Car can move few yards back and forth by its own / no driver inside.)

A test drive will take place in a parking lot and city streets next to our office in San Mateo (We are located in a quiet business district, with the minimal traffic, and this makes this experience easy and stress-free.)

Your participants will be behind driving wheel during autopilot mode. One of our representatives will be present in the car all the time to advise.

Every participant who is willing to test drive Tesla should have a driving license valid for driving in US. (I.e. valid for renting cars in US).

- 11:30 am - 12:00 pm

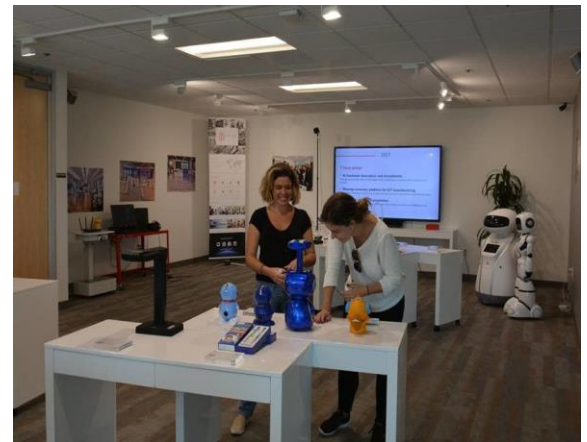

### Guided tour of Stanford University

Stanford University gave rise to Silicon Valley as we know it today. It has been one of the most successful universities when it comes to educating leaders, spinning off new ventures, and commercializing university research.

- 12:00 pm - 1:00 pm

### Lunch

- 1:00 pm - 2:00 pm

### Head Office:

9 Sizostris St., Attarin-Alexandria, Egypt.  
Tel: (+203)4847872/3/0 - Fax: (+203)4859660

## B8ta store

Visit to B8ta store and immerse yourself in hands on IoT experience. B8ta is a new kind of retail store designed to improve the customer and maker experience. B8ta helps people discover, try, and learn about new tech products while empowering makers with a simple retail-as-a-service model that puts them in control. The visit will include technology demo presentations and individual tryouts.

- 2:00 pm - 3:30 pm

## Google Headquarters and Google plex

Mountain View, CA.

Guided tour of Googleplex, Android Garden, and Google Merchandise store. Hear insightful facts about unique Google's work culture. And expert from Silicon Valley Innovation Center will tell you about how this legendary company is changing the world of business with big data, autonomous vehicles, and artificial intelligence.

- 3:30 pm - 5:00 pm

## Apple visitors center

Cupertino, CA.

One of our representative (SVIC) can explain Apple history and culture, as well as highlight 4 areas to explore at Visitor's Center.

Featured hands-on experiences

ELECTRIC VEHICLE - Tesla Model X - Experience first hand the autopilot, auto parking and auto summon features of the Tesla Model X, all while sitting behind the wheel.

VIRTUAL REALITY HEADSET - Oculus Rift - Immerse yourself in virtual reality with the Oculus Rift VR. The comfortable headset features adjustable straps and balanced weight so you can game or watch your favorite movies.

**Tour Price 475 USD / Person – Excluding Airfare and Accommodation.**
